

# Social Media Success

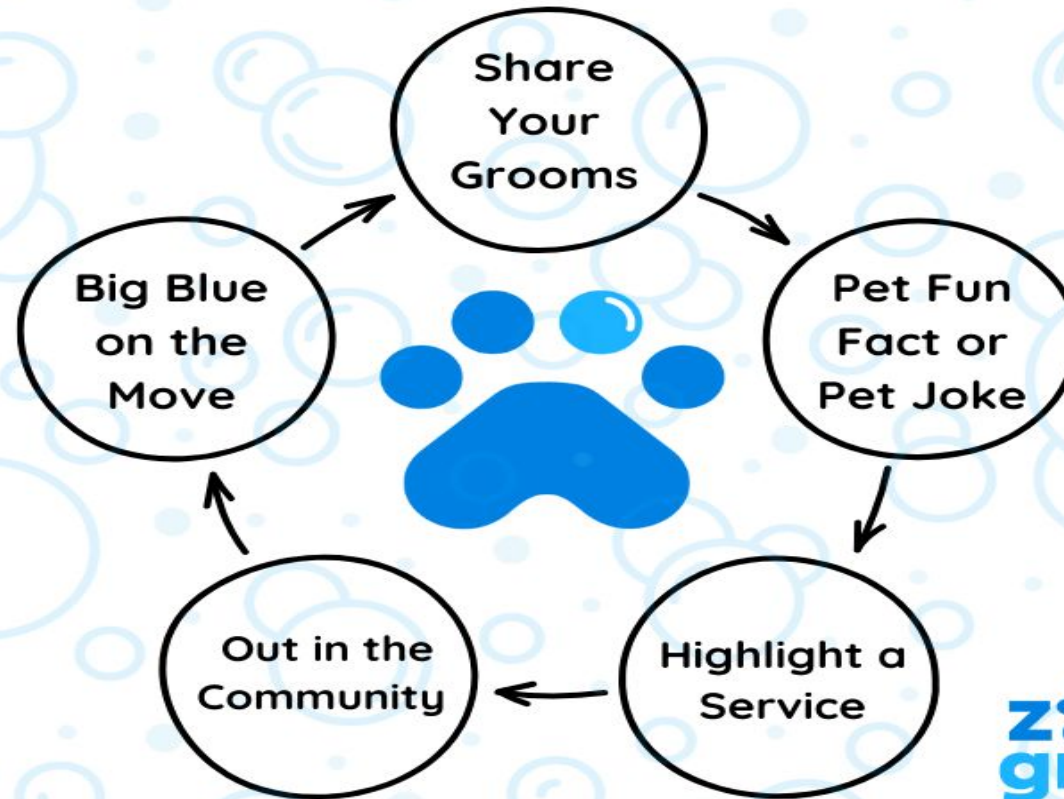

Americans are spending over 2 hours each day on social media. That means these platforms are like our virtual storefronts – they're where people come to check us out, see what we're all about, and hopefully, become our loyal customers!

When someone sends a message or leaves a comment, it's like they're joining in on our story. We want to respond to them quickly and warmly.

Mix up your feed! Share photos of happy pets, behind-the-scenes sneak peeks, funny memes, and reviews. The more variety, the better!

- Respond Quickly
- Respond with ENTHUSIASM
- Ask for Pet's Name
- Offer Dates and Times to Schedule instead of When would you like to schedule?
- Confidence in your pricing when you respond!

groomin**

Carmen was great and I am glad that she gave him a nice cut since Kobe is difficult and fussy when it comes to his face, attacking towels and not being cooperative. Please send her back for his next grooming.
